

EKFI – Exchange Knowledge for Future Innovation

Belgian feedback on platform

January 2021

Feedback

- Add the **possibility to add links** in stead of files.
- Search is slow
- Profile and preview file shouldn't be visible in files listing
- Download button -> Get the material
- Make keywords clickable, link it to the search form (?searchQuery=PHP)
- Edit button on the detail page of my own material

Issue tracking?

- Could we have some sort of online ticketing system to track issues, give feedback on the platform.
- This way we don't 'lose' track of these issues in multiple emails

Exchange Knowledge for Future Innovation

3

Erasmus+

Next period

- In the next period we will:
 - Upload extra material
 - Keep testing
 - Contact other schools to upload their material
