Examples and case

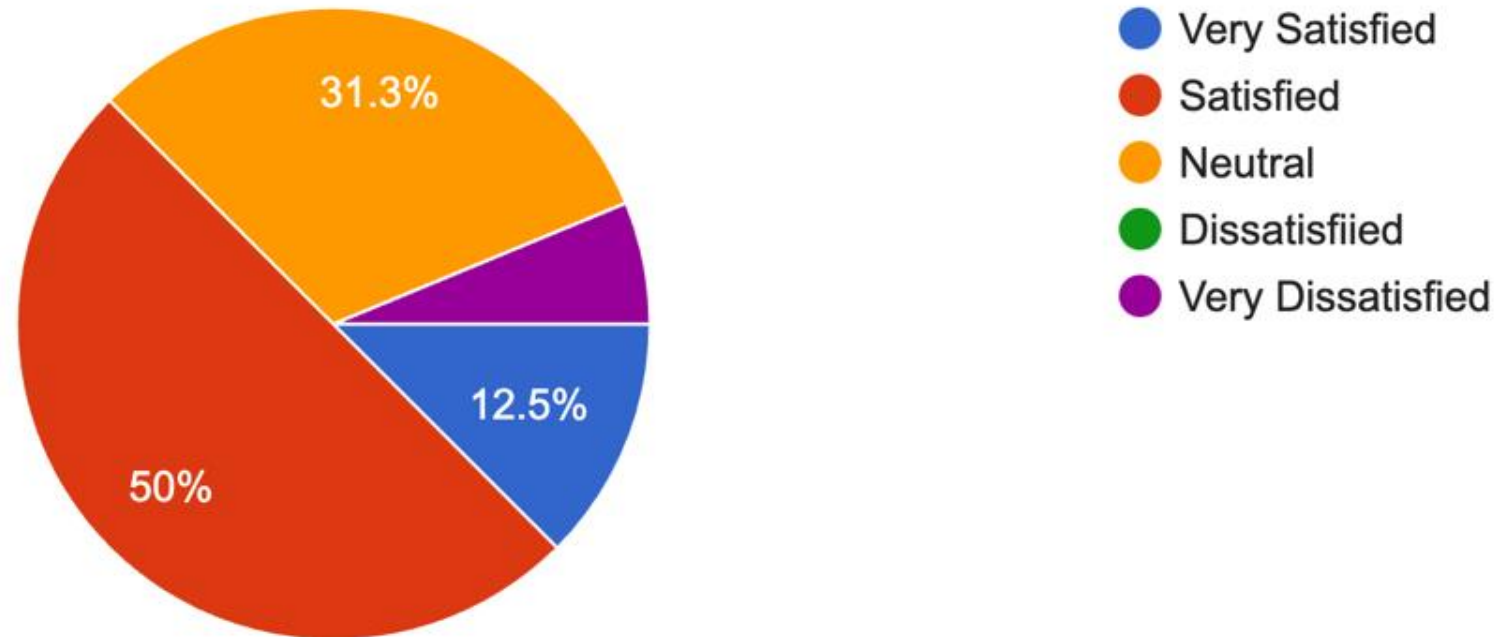

Learning Outcomes How satisfied are you with how the learning material helps you understand the topic?

16 responses

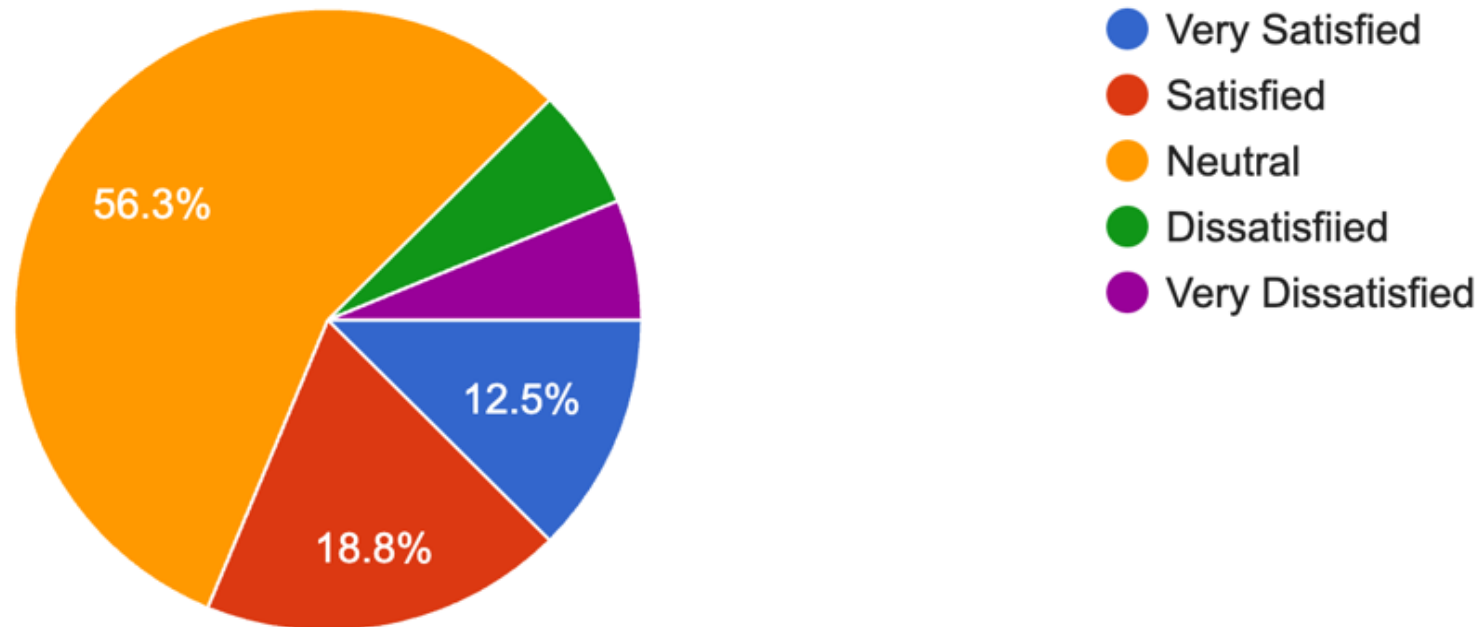

How satisfied are you with the improvement in your knowledge after using the learning material?

16 responses

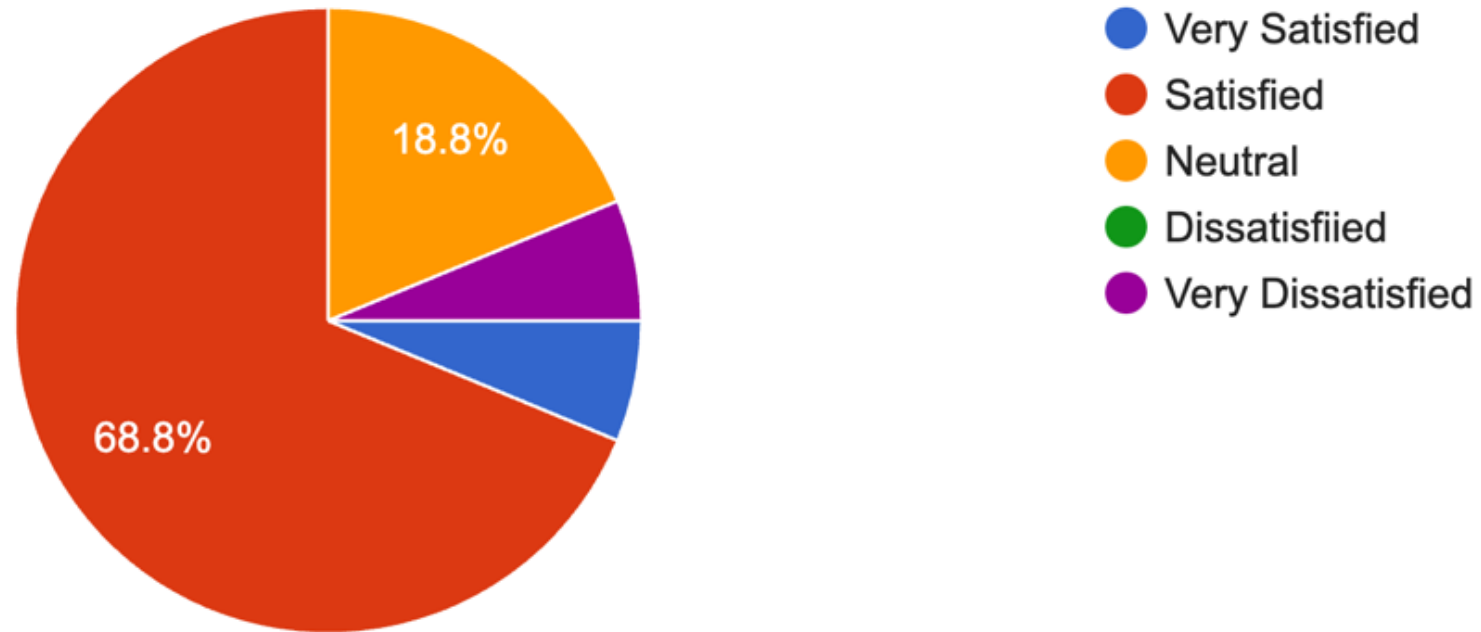

How satisfied are you with the ability to apply what you've learned from the learning material to real-world scenarios?

16 responses

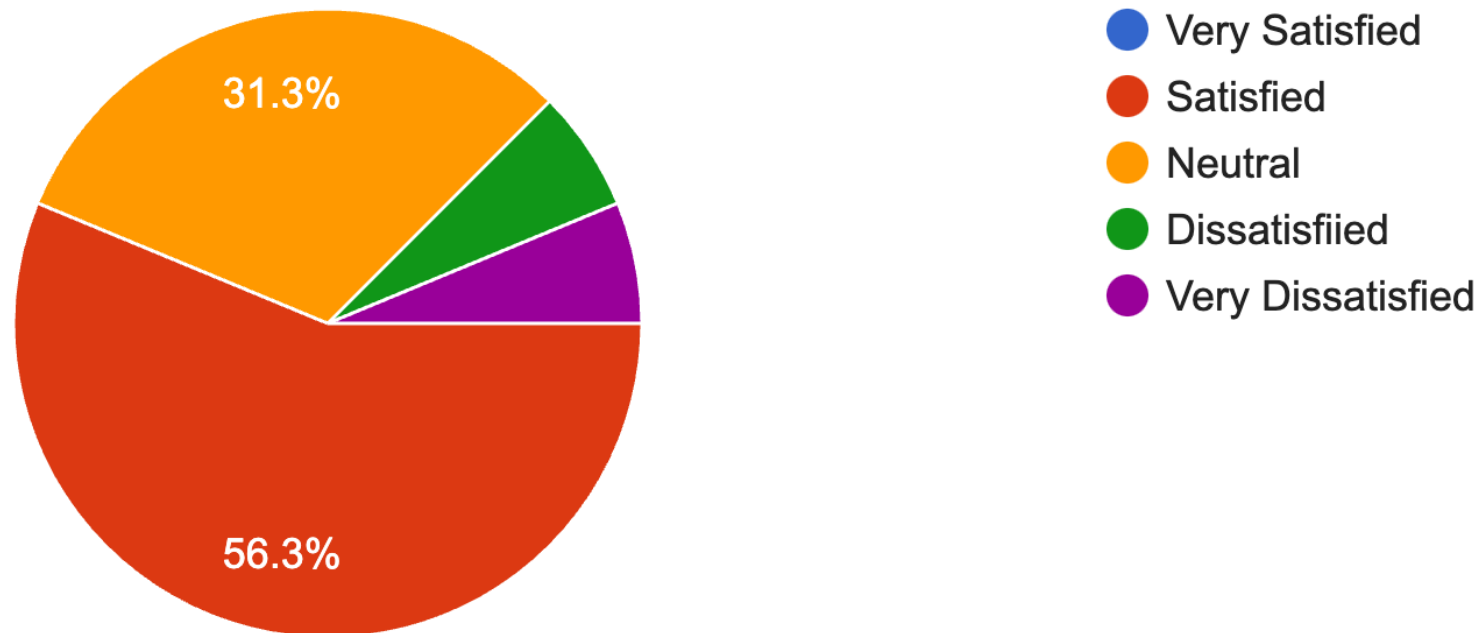

Overall Satisfaction How satisfied are you with the potential for reusing this learning material in the future?

16 responses

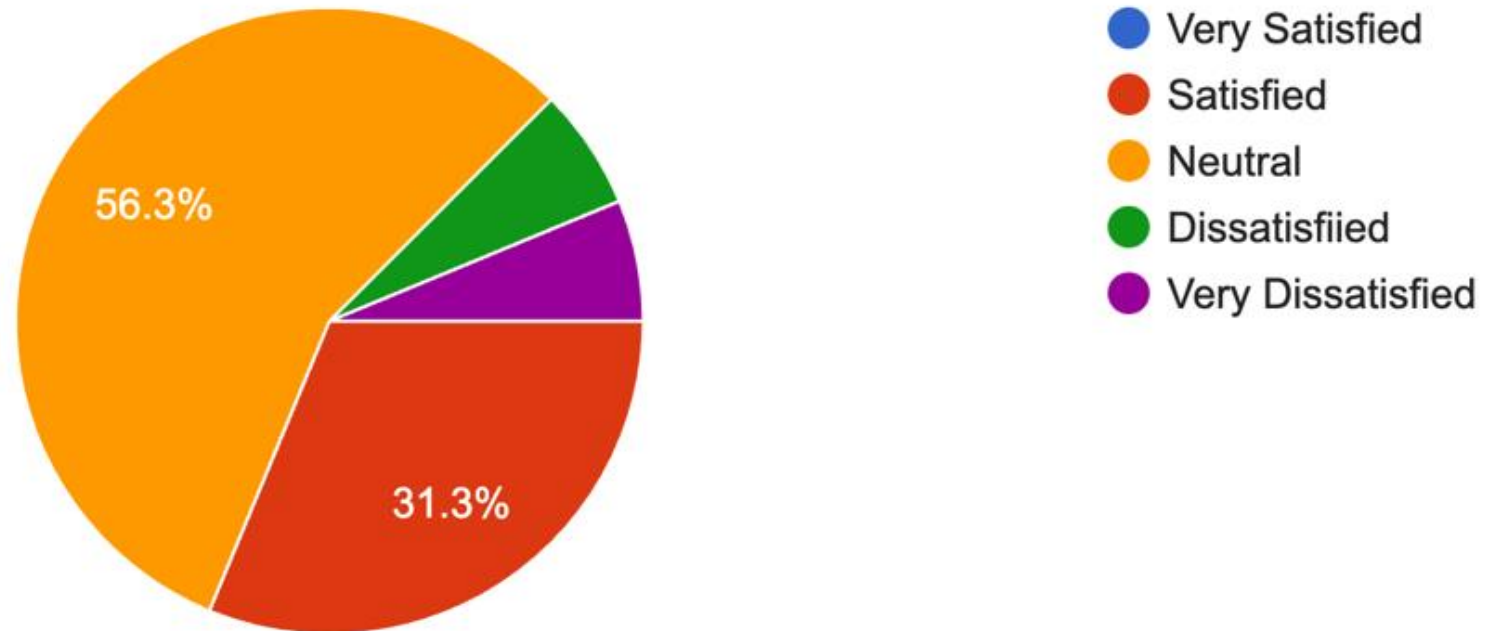

How satisfied are you with the likelihood of recommending this learning material to others?

16 responses

What improvements would you suggest to enhance this learning material?

16 responses

Conclusion

- ❖ More visual approach
- ❖ The study material corresponds to modern problems
- ❖ It would suggest to have more examples in the learning materials
