

# EKFI+ Project

---

Overview of changes

June 2023, Ghent

Erasmus+

# Work in progress

---

- Work according Agile (loosely)
- Not set in stone!
- I prepared a discussion piece
- Presentation will be altered after each meeting with new stories, epics (and perhaps backlog items in future)

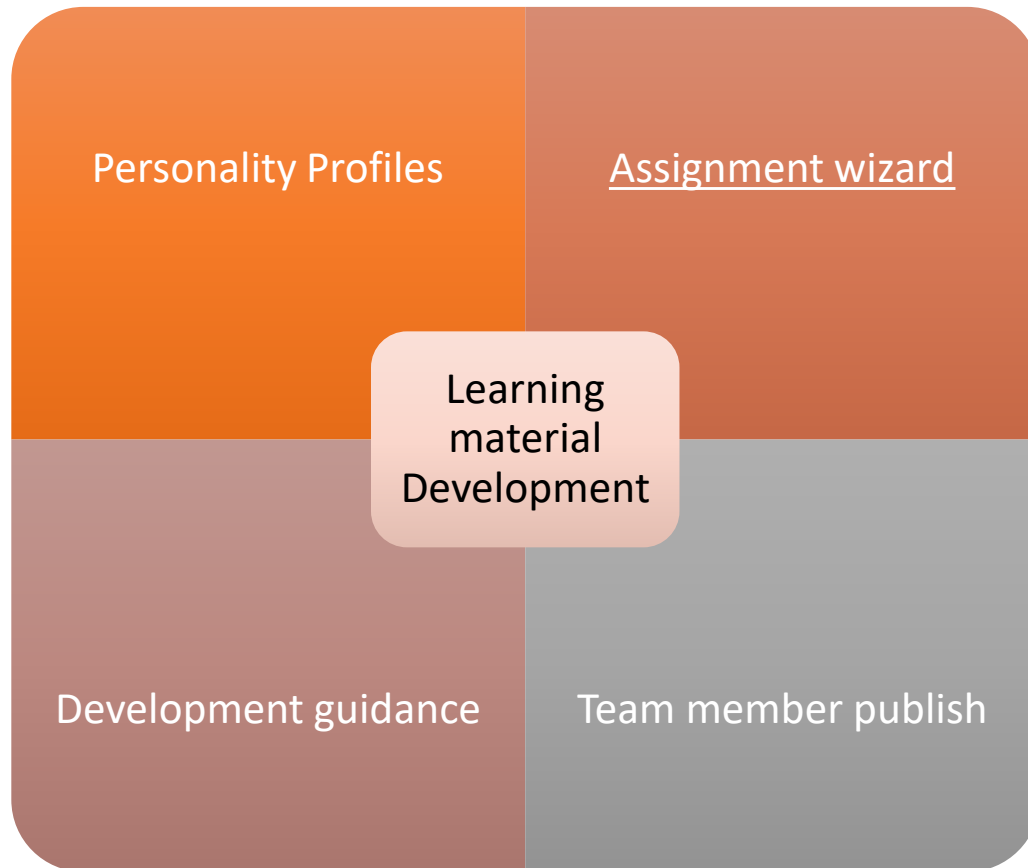

# Initiative

---

- The EKFI platform should offer active users the process of jointly creating valuable new content.

# Epics

- Personality Profiles – used for matching team members (when not solo project)
- Assignment wizard – help the initiator define an assignment (project) that is well written and clearly defined. Enough for possible team member to be enthusiastic.
- Development guidance – what are the basic steps in learning material development and how to setup team communication (Teams, Zoom, OneDrive, etc)
- Team member publish – All team member publish their material possibly in their language and are rewarded accordingly.

# Personality management

---

- Stories
  - Extend the user competences with personality profiles
    - Question: what extra competences do we need (educational model Greece - Salon project Frank)
  - Make preferences concerning personalities (e.g. heart) – Question what to add
    - Contributing to Team success
    - Building positive working relations
    - Building trust
    - Managing conflict
    - Gaining commitment
    - Communication skills

# Assignment wizard

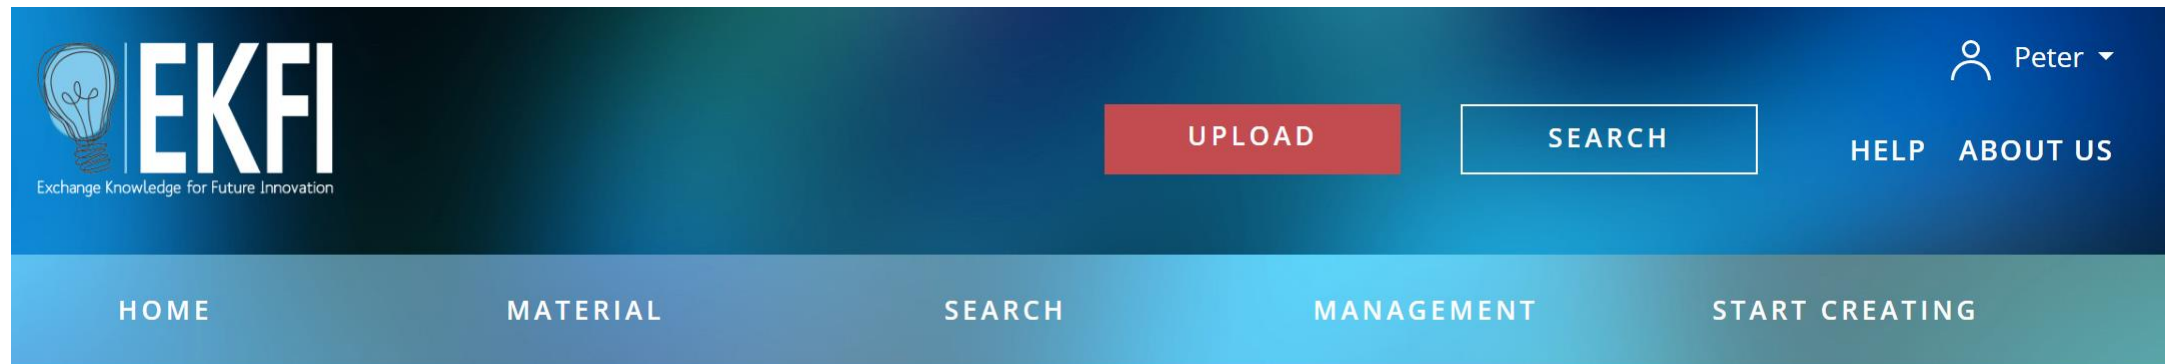

---

- Stories
  - Show an overview on how to setup an assignment
  - Guide the user through the definition an assignment
    - Is it a solo, internal (group or external project (group)
    - Type of learning material
    - Expected work-flow plan
  - Minimal information for matching: Title, Educational level, Keywords, EQF
  - The system team members based on the assignment
    - Assignment lead can select members by email (users will get request)
    - Proposes a team of platform member (but what heuristic - Question)
  - Create the team (setting the formal roles)

# Navigation

How to get where we want

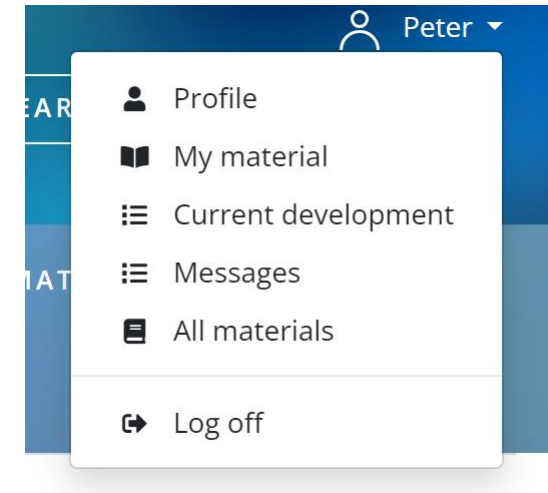

- How to start developing new material ? (Question)

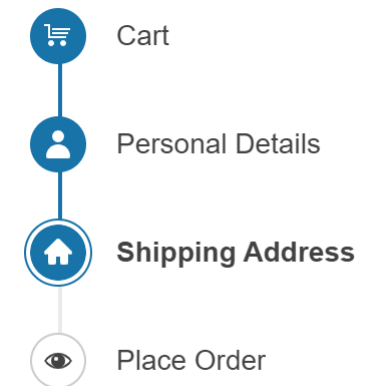

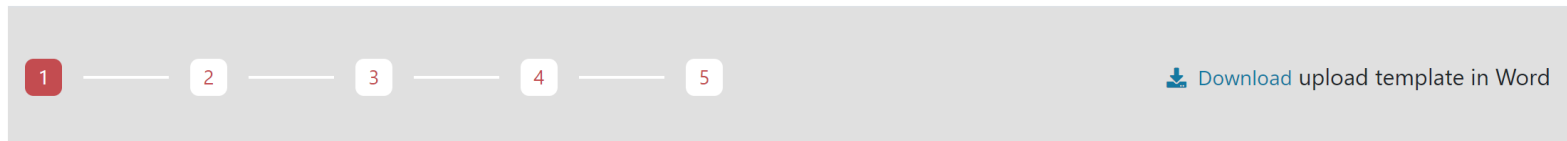

- Search button will be [CREATE]. [ABOUT US] wordt FAQ. (Question)

# Navigation

- All material in one list on the MyMaterials page with sorting activated on New.

## MATERIAL INTAKE

# Develop guidance

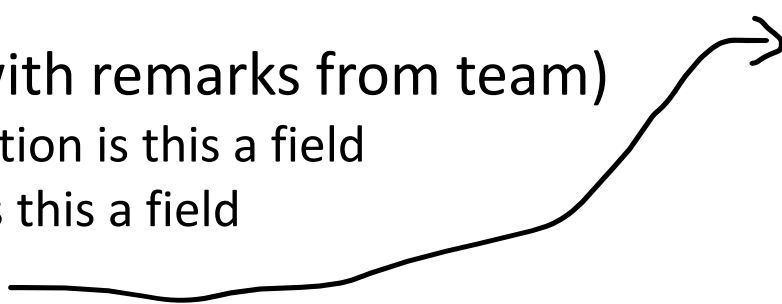

---

- Stories
  - Step by step (ADDIE) pages (past steps can be altered) on how to proceed by the created team
    - Analysis Stage elements (all field with remarks from team)
    - Design Stage elements
    - Development Stage elements
    - Implementation Stage elements
    - Valuation Stage
  - The results/texts can be translated, one way or the other – link to google translate or DeepL
  - Team members must communicate to be able to work together
    - create links to shared environments – teams / confluence / dropbox / ...

# Develop guidance

---

- Stories
  - Design Stage elements (all field with remarks from team)
    - Implementation of strategies: Question is this a field
    - Subject matter analysis: Question is this a field
    - Audiovisual & technology selection
    - Time indication (study and total)
    - Cost
    - Design of UI\_UX (Question Is that relevant here?)
    - Physical design
    - Content (exercises) – summation of what to develop
    - Lesson planning
    - Assessment instruments
    - Formative evaluation type: Question is this a field

Paper (white or research)

# Develop guidance

---

- Stories
  - Development Stage elements (all field with remarks from team)
    - Question: do we have guidance at this stage
    - Question: should we here define all the separate parts that are developed in order to check completion in later stage?
    - Role of the teacher
    - Learning environment (physical class, online, etc..)
    - Learners

# Develop guidance

- Stories
  - Implementation Stage elements (all field with remarks from team)
    - Question: is this a list of checkboxes?
    - Question: what should be checked for all relevant materials?

# Develop guidance

- Stories
  - Valuation Stage elements (all field with remarks from team)
    - Question: is this a list of checkboxes? And if yes, which questions?
  - Submission and Share Stage
    - Checkbox: is for each separate part a description

# Team member publish

---

- Stories
  - The team members have easy access to a publish of the material after closing the project.
    - Question: do we need to predefine all fields in the last step of the guidance
    - Question: which fields are to be filled out by the separate team members
    - Question: how is copyright managed
  - Scoring in one language is scoring in all languages
    - Question: do we want that the material is linked and that reviews are copied over all linked languages
    - Question: do we need different scoring in teams
  - There should be a process evaluation before publish and a lessons learned
